Cellaring potential 10 + years. Be patient, this wine will benefit from further aging.

  
Cellaring potential 5 + years. Still evolving, but will drink very well.

  
At peak. Think about drinking now and over next few years.

  
Drink now.

Please note this cellaring chart is a guide only. Given the assumption of good cellaring, this guide is conservative as we believe it is better to drink the wine earlier rather than hold it too long and be past its peak.

The variability of cellaring conditions, along with personal taste, mean that Elderton cannot guarantee a wine is at its peak. We recommend storing wine in a dark environment with a cool, stable temperature.
